

**Embedded Software Quality Assurance Experts****Services Data Sheet****Overview**

CyberQ has a team of experienced Quality Experts of various experience levels.

CyberQ can provide an Onsite Quality Expert who can serve following purposes:

- Remain onsite and take care of daily quality assurance activities
- Define processes, provide trainings on processes
- Conduct trainings
- Facilitate implementation of processes
- Conduct audits, facilitation sessions, metrics analysis
- This helps reduce the internal effort of client to a large extent.

In this case, the quality expert reports to the client and is completely managed by the client.
